Government Administration and Elections Committee

My name is John Gallo; my wife and I are retired Connecticut public school teachers. Neither of us has ever missed a single election since our 21st birthdays; we both voted for the first time in 1969. We strongly support all four proposals (HJ5, HJ13, HJ34, and HJ95) to make voting more accessible to more citizens. We are disheartened to see the poor voter turnout in too many elections. These bills together will make the task of voting easier for many. A higher voter turnout will give our government a better chance to be truly reflective of the will of the people - all of the people. We urge you to support these bills.

Thank you for your attention to this matter.

Sincerely,

Mrs. John Gallo
